

## DC PUMPS VISCOMAT DC

**EN.** DC oil pumps. A new and complete range of pumps for transferring and delivering oil, operated by direct current motors. These products are especially designed for transferring oil from drums in situations and locations where electricity or pneumatic connections are unavailable.

**ES.** Bombas para aceite de corriente continua. Una nueva y completa gama de bombas para trasegar y suministrar aceite, accionadas por motores de corriente continua. Estos productos han sido pensados para aquellas aplicaciones en las que se debe trasegar el aceite del bidón sin contar con conexión a la línea eléctrica o a la instalación de aire comprimido.

**PT.** Bombas de corrente contínua para óleo. Uma nova e completa gama de bombas para transferência e fornecimento óleo accionadas por motores de corrente contínua. Estes produtos foram concebidos para aplicações em que for necessário transferir óleo de um barril sem ligação à linha elétrica nem sistema de ar comprimido.
